

July  
Mistel. Sunday Dec 18 - 467

My dear Mary.

I have but a few minutes for writing.

We hope to get much of your admirable letter to Mr. Armstrong printed & I regret leaving out the point imputing motives to the Unit. Minister who signed the Address.

Mr. G. has had a demand from Dr. Parker on of his authority for the statement made at the B. F. W. Conf. Mr. G. has answered him courteously, & has written in explanation to Dr. Gamwell -

I fear the "Register" is pursuing the "you & may" cautious, all pleasing, (rather non-pleasing course). Mr. Hinko is pushing to stand for America to lecture on History: the testimonial to him is about £400 -

The story we have made among the Unit. is likely to do good - Mr. Fay's letter to me is not very damaging to us. I hope my statement & view of our position may have given you satisfaction? We will not go to help - an Address

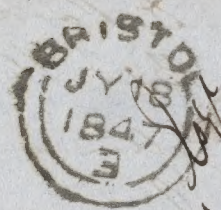

is now in agitation referring to the Handed Day V. Period. I received no "Liberty" for June 4<sup>th</sup> - 11<sup>th</sup> - (those which contained the act of Dr. Douglass, & last to which) Mr. James has had his, & so has Mr. Phillips of Exeter. Mine for June 18 - 25, & July 2 are arrived for Cambridge. In great haste

Yours sincerely  
J. P. Collier

Mr. Armstrong has just sent me to read his letter to Dr. Parker & to Dr.

Emmett, both excellent ones. The latter I will inclose open in this  
 both to save Mr. A. a postage, & to give you the opportunity of perusing it  
 which I am sure Mr. A. will not object to. Please to seal, & transmit  
 it to D.C. without delay.
